

## AEROSPACE COMPOSITES MALAYSIA SDN BHD

# QUALITY DIRECTOR

This position will lead the Quality organization at Aerospace Composites Malaysia (ACM), a Boeing-Hexcel joint venture. The organization is comprised of Quality Assurance, Quality Engineering, Non-Destructive Testing, and Quality Management systems. As the Director of Quality, a selected candidate will become the on-site leader for all aspects of Quality, including performance, compliance, improvement, development of the function, technology, Quality culture, and employee development. In addition, the role will be a key leader of ACM's leadership team, and a strategic participant in cross-functional Quality, Production, Engineering, and Supply Chain activities.

### Responsibilities:

- Manage, develop, and motivate employees/managers performing activities across multiple Quality disciplines
- Develop and execute business plans, policies, and procedures and develop organizational and technical strategies
- Create a culture of zero defects and built-in quality across the organization
- Provide education and coaching on the Quality System and problem-solving
- Acquire/manage resources and lead process improvements
- Develop and maintain relationships and partnerships with customers, stakeholders, peers, partners, suppliers, and direct reports
- Connect with Boeing and industry groups for best practices in Quality, Fabrication, and Supply Chain activities
- Deploy tools such as Advanced Product Quality Planning (APQP) – the aerospace standard for product development and deployment
- Drive affordability of ACM's products particularly focused on improvements in the cost of quality/cost of poor quality

### Requirements:

- Master's / Bachelor's degree in Engineering or technical
- More than 5 years of Management experience and direct experience with production quality systems and organizations
- Experience in the aerospace industry involving composites, fabrication, or assembly
- Experience in teaching or coaching Lean, RCCA, and problem-solving tools
- Lean Six Sigma Green Belt or higher certification
